General Session

To be green or not be green, that is the question; climate change, a major disruption for the banking sector

Emerging markets have become a major driver for sustainable development and addressing climate change. Market-based sustainable finance initiatives led by the members of the Sustainable Banking Network (SBN) have made significant progress in directing the financial sector toward sustainability. Established with support from the International Finance Corporation (IFC), member of the World Bank

INTRODUCTION:

Conclusions of the Sustainable Banking Network (SBN) Progress Report
